

cellular lipid metabolic process

regulation of biological quality

lipid metabolic process

carbohydrate metabolic process

transferase activity, transferring acyl groups other than amino-acyl groups

nucleobase-containing small molecule metabolic process

regulation of anatomical structure morphogenesis

transferase activity

transferase activity, transferring acyl groups

regulation of developmental process

developmental process

transferase activity, transferring phosphorus-containing groups

anatomical structure morphogenesis

nucleobase-containing compound biosynthetic process

carbohydrate derivative biosynthetic process
